### DETAILED ACTION

On March 21, 2007, an Office Action was sent to the Applicant rejecting claims 1-4. On September 21, 2007, the Applicant responded by amending claim 1 and adding new claim 5.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Conklin (6,336,105) in view of Case (6,510,418).

Conklin discloses the invention substantially as claimed, as set forth in the previous Office Action. Conklin does not disclose querying a database of relevant conditional sales offers or using the controller to provide prospective buyers and/or sellers of goods and services the ability to anonymously exchange conditional Requests For Bids and Conditional Sales Offers prior to the acceptance of a binding offer. Case

teaches a method for offer submissions comprising querying a database of relevant conditional sales offers (or using the controller to provide prospective buyers and/or sellers of goods and services the ability to anonymously exchange conditional Requests For Bids and Conditional Sales Offers prior to the acceptance of a binding offer (col.2, lines 30-40; col.7, lines 59-63; and col.10, lines 25-54). It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the teachings of Case within Conklin for the motivation of obtaining the best offer for the users and provide optimal security.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
